

Production manager (f/m/d) sorghum and intercrops

We are looking for a production manager (f/m/d) for sorghum and catch crops in full-time and unlimited positions in the Special Crops sub-business unit of KWS SAAT SE & Co. KGaA at the Einbeck/Wiebrechtshausen site.

Your tasks:

- Planning and coordination of field production of certified and basic seed
- Close cooperation with breeding, sales and product management
- Responsible for the efficient processing of seed in the expected quality in internal and external seed processing plants, including post control
- Inventories and inventory management: estimation of materials and stocks for production planning
- Monitoring and reporting on field production during the growing season
- Calculation and control of production costs and quantities of the various preparation partners
- Responsible for entering yield and quality-related data and processing steps in the different systems

Your profile:

- Master's degree in agricultural sciences with a focus on crop cultivation/production or comparable agricultural knowledge gained through professional experience
- Knowledge of seed production, the agricultural supplier industry and the related markets
- Good knowledge of plant cultivation
- Experience with complex structures in an international environment
- Very good knowledge of spoken and written English, knowledge of German is an advantage
- good PC user knowledge (MS-Office, SAP)
- High level of team and communication skills, intercultural competence
- Confident appearance, persuasiveness, organizational talent
- Willingness to travel in Germany and abroad
