

EuroChem is a leading global producer of nitrogen, phosphate and potash fertilizers. The Group is vertically integrated with activities spanning mining to fertilizer production, logistics, and distribution. Headquartered in Zug, Switzerland, the Group has a global footprint and employs more than 26,000 people.

We are looking for a committed colleague for our team in Mannheim, Germany. Starting as early as possible to start ASAP or upon your availability.

Supply Chain Manager (m/f/d) Feed Phosphates

This is a unique opportunity for somebody, who likes to be active in Supply Chain and Feed Phosphates at the same time being part of important projects and making difference. Are you interested in professional growth and want to be part of our international team? Then get acquainted with your future responsibilities:

As a supply chain manager in our Contract and Order Execution team, you will be responsible for customer order fulfillment in the Feed phosphate branch of our business. You will interact with all parties of the supply chain such as customers, sales teams, production and loading sites, transport service providers to ensure smooth operations.

Key responsibilities:

- Ensuring order fulfillment, timely provision of goods, organization of transports, documentation, invoicing and other order relevant tasks
- Proactive tracking of planned quantities to avoid stock-outs and bottleneck situations in the warehouses, production and delivery sites as well as in the interest using full loading capacity
- Customer focus, while securing EuroChem interests towards the supply chain partners
- Optimization of order fulfillment process
- Compliance with customer requirements, international transport, safety and quality regulations as well as the GMP+ regulations

You offer:

- Educational background in forwarding or business administration with focus in logistics or SCM
- Proven track record within order- and transport management
- Preferably you are experienced in the feed industry, well acquainted with GMP+, as well familiar with specifics of bulk logistics and timely supply of compound-feed plants
- Fluent written and spoken English
- Proactive and self-motivated personality, hands-on mentality
- Intellectual curiosity about why things are the way they are to challenge the status quo, searching how to improve with proper corrective actions, showing problem-solving skills
- Trustworthiness and professionalism in dealing with all involved parties; very good networking skills and intercultural skills

Company benefits:

- Working in a committed team with an international working environment and an open working atmosphere
- Position appropriate remuneration and further benefits
- Attractive social benefits, company pensions scheme
- Workplace health management
- Working in a family-friendly environment
- VRN Jobticket (Verkehrsverbund Rhein-Neckar)
